## Educational paths

1. "Las" educational path: marked green, 12 stops, 1,5 km long, walking time - 1 hour.

The path starts at the Park's headquarters in Krzywe.

It leads around lake Suchar I and allows you to see several different forest communities, as well as a reconstructed settlement of reindeer hunters from the Stone Age.

2. "Suchary" educational path: marked green, 7 stops, 2,5 km long, walking time - 2 hours.

The path starts 400 meters from the Park's headquarters in Krzywe.

It leads among the small forest lakes (called Suchary), through a bog forest with characteristic plants and animals. On the way you can see beaver lodges, traces of their activity and, if you are lucky, a beaver itself. There are wooden footbridges over boggy places on the path, as well as a roofed resting place and an observation platform.

3. "Jeziora" educational path: marked blue, 10 stops, 5,2 km long, walking time - 2,5 hours.

The path is located near Gawrych Ruda, along the shores of the Słupia bay of Lake Wigry.

It provides information about history of the area, its geomorphology and three lakes: Wigry, Suchar Wielki and Długie. On the path, there is an observation platform with beautiful view of lake Wigry.

4. "Płazy" educational path: marked green, 6 stops, 4,2 km long, walking time - 2,5 hours.

The path is located in the village of Rosochaty Róg.

It leads among small ponds created especially for amphibians. Just like all the paths in the Park, you can visit it all year long. However, the best time to observe amphibians is their mating season in spring.

5. "Puszcza" educational path: marked yellow, 8 stops, 3,7 km long, walking time - 2 hours.

The beginning of the path is located in the village of Wysoki Most.

It shows the northern part of the Augustow Primeval Forest, the Czarna Ha cza river and lake Konopniak.

6. "Samle" educational path: marked red, 14 stops, 4,8 km long, walking time - 2 hours.

The path is located in the vicinity of Nowa Wies village.

It shows forest and lakes of the northern part of Wigry National Park, as well as the history of the area.

7. "Ols" educational path: 6 stops, 288 m long, walking time up to 0,5 h.

The path is located in the village of Stary Folwark, near the Wigry Museum.

Most of the way leads along wooden footbridges in a wet alder forest. The path also shows a reconstructed trench from World War I.

8. "D bek" walking path: marked yellow, 1,6 km long, walking time: 1 h.

The path is located in the Stupie area, on the peninsula of D bek.

Wandering along the path you can admire magnificent views of lake Wigry and surrounding forests.
